

POWER POST AVAILABLE IN SILVER & WHITE

The 0.65m double-sided Marco Power Post is available in both satin anodised aluminium and white powder coated finishes.

The post is used in much the same way as the Power Pole, but transfers wiring up from the floor, rather than down from the ceiling.

It conceals wiring effectively and positions sockets conveniently, which is of particular benefit in offices and other application areas.

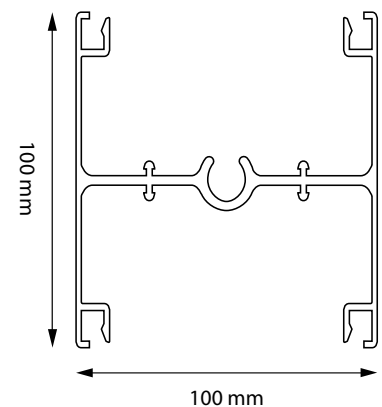

Marco Power Posts have a metal plate on the underside which is fixed securely to the floor, and a strong steel rod that extends from the plate through to the top of the post to give the product added strength. Power Posts can be fabricated to specific sizes, up to 1 metre tall, if necessary. Should you require any further information then please contact our sales office.

The Power Post is capped with a pyramidal top, and is supplied with a floor boot, six accessory boxes, uPVC divider and accessory spacers. The accessory spacers, which are fitted between the socket boxes, help to reduce installation times.

Dimensions & Cable Capacities for Power Pole & Post

Data Cable Diameter	Nominal CSA	Compartment A		
		4120mm ²	4111mm ² & 25mm Back Box (2393mm ²)	4111mm ² & 35mm Back Box (1670mm ²)
		45% Fill (1852mm ²)	45% Fill (1089mm ²)	45% Fill (765mm ²)
5mm	19.6mm ²	94	54	38
5.5mm	23.8mm ²	77	45	31
6mm	28.3mm ²	65	38	26
6.5mm	33.2mm ²	55	32	22
7mm	38.5mm ²	48	27	19

Power Cable Conductor CSA	Cable Factor	Compartment A		
		4120mm ²	4111mm ² & 25mm Back Box (2393mm ²)	4111mm ² & 35mm Back Box (1670mm ²)
		45% Fill (1852mm ²)	45% Fill (1089mm ²)	45% Fill (765mm ²)
1.5mm ²	8.6	215	125	87
2.5mm ²	12.6	146	85	59
4mm ²	16.6	111	64	45
6mm ²	21.2	87	50	35
